

75th Anniversary Community Grants Fund

Overview

In 2024, Snowy Hydro is proudly celebrating 75 years of the iconic Snowy Scheme with a series of community-focused initiatives.

The 75th Anniversary Community Grants Fund provides grants of up to \$5,000 for local community groups. This targeted funding aims to empower local community groups to celebrate the proud history of the Snowy Scheme in ways that are most meaningful to them.

Benefits of supporting community-led initiatives

The Snowy Scheme is at the heart of our electricity-generating assets and our role in supporting Australia's transition to renewable energy. We are proud to be a part of communities across the Snowy Mountains region and are grateful for the passion for its proud legacy shared across these communities.

The initiatives supported by the Snowy Hydro 75th Anniversary Community Grants Fund reflect the lasting impact of the Snowy Scheme on the local region.

By supporting these community-led endeavours, we recognise the importance of the region's ongoing connection to our proud history.
